Subject: Division Directive to Reclaim, Zamaroni Quarry, Inc., Antelope Valley Quarry, S/039/0016, Sanpete County, Utah

Dear Mr. Zamaroni:

As per the requirements of R647-3-113.5, the Division of Oil Gas and Mining requires reclamation of the Antelope Valley quarry. You are hereby directed to have all regrading and seeding work completed by October 15, 2013.

The Division is taking this action based on our records which indicate the Antelope Valley quarry has been inactive since at least 2003. Rule R647-3-113.5 states in part:

Reclamation of a small mining operation may be required after five (5) years of continued suspension.... The Division will require complete reclamation of the mine site when the suspension period exceeds 10 years....

Failure to complete reclamation as required may result in forfeiture of the reclamation surety and enforcement action. Also, the annual permit fee of \$150 for 2013 has not yet been received.

If you have questions or concerns about this letter, please contact Peter Brinton at 801-538-5258, or me at 801-538-5261. Thank you for your cooperation.

Sincerely,

Paul B. Baker
Minerals Program Manager
